What we do in Nursery...

Here at Beechwood Childcare Mill Lodge, Our qualified, experienced and dedicated team endeavour to make our setting friendly and fun. We know the importance of your child feeling comfortable in our setting.

We use the Early Years Foundation Stage to help monitor your child's development whilst they are with us, and aim for them to become **'School Ready'** by the time they leave. The children are encouraged to take part in daily activities, these are influenced by their interests and the areas of learning this allows them the freedom of **'child initiated play'** choosing who and what they would like to play with.

We believe that play based learning is one of the most important things with children of this age, and use different methods to encourage this.

Children need the space to move freely to explore their environment. This allows children to develop an understanding through experimentation and discovery. We believe the outdoor space is the perfect place for this to happen.

We use our outdoor space to help support children to develop physically and allow them to be active and healthy.

We try to interact with our local community, we try to take trips to the local library, parks and shops when ratios allow this.

Parental Testimony...

'Beechwood are doing a wonderful job with my second son, I really would not trust any other childcare provider with my kids.'

'My little girl merrily walks in of her own accord and makes herself at home'.

'The best thing about Beechwood is the staff. They have done a great job of looking after our daughter and have become our friends'.

'We are happy with our little one going to Beechwood and would like to thank all the staff for helping Ella through her journey in nursery'.

'Our daughter surprises us weekly with something new she has learnt at nursery'.

'I could not be happier with the care my children have received, Nothing is too much trouble'.

What we do in our Clubs ...

We run a very popular Before and After School Club, which caters for the children who attend Mill Lodge Primary School. We work closely with our school and find this to have a positive impact on the children as we are able to maintain a level of consistency between the settings.

During these sessions, children are allowed to relax and have a break from the structure of school. We do encourage daily activities, the children take an active roll in the weekly planning of daily activities, working as a team to decide what we will do. Children here are also encouraged to create their own set of rules that everyone is expected to follow, so that children develop a sense of ownership and belonging within the setting.

We run a holiday club in all of the school holidays, except for the Christmas period. All children from 3-11 years of age are welcome here. Our holiday club is ran from our Beechwood Nursery building.

During these we usually do themed weeks, with lots of fun activities included, and often *(if ratios allow)*, we take trips out of the setting, including visits to the local parks and the cinema. We also use the out-door space and school field where possible.
